GEORGINA MELLING

07599 370901 | georginamelling@outlook.com | g-melling.github.io | linkedin.com/in/g-melling

Final-year MSc Computer Science with Artificial Intelligence student at the University of York, interested in Software Engineering, Cloud Infrastructure and DevOps for deploying scalable, reliable AI systems.

% skills

Programming & Web

Python Java JavaScript HTML CSS React C

Data & AI

NumPy Pandas scikit-learn Matplotlib SQL

Tools & Practice

GitHub Tkinter Bootstrap OpenCV PySide6

% certifications

HarvardX CS50X: Introduction to Computer Science

HarvardX CS50P: Introduction to Python

% projects

01 PaintPal for Painting Lab

Educational image-processing application that transforms reference images into progressive drawing and painting stages, including value studies and line drawings. Built using a modular architecture with automated testing.

Python OpenCV PySide6 Pillow pytest

02 Social Media Moderation Analytics Dashboard

Desktop analytics platform supporting social media moderation through data cleaning, reporting, statistical analysis and visualisation of user engagement and moderation activity.

Python Tkinter Pandas SQLite Matplotlib

03 ML for Biodiversity Conservation

Combined multiple UK biodiversity datasets and used a Genetic Algorithm for feature selection with Linear Regression to identify environmental variables associated with changes in wild bee populations.

Python Numpy Pandas Scikit-learn

% education

MSc Computer Science with Artificial Intelligence

University of York / Expected: May 2027

Completed modules: Software Engineering, Advanced Programming, Applied AI, AI and Machine Learning, Algorithms and Data Structures, Computer Architecture and Operating Systems, Computer and Mobile Networking, Research Methods, Big Data Analytics.

BMus Music

Royal Holloway, University of London / 2010-2013 / 2:1

% experience

Musician, Composer, Arranger & Educator: Freelance / 2013 - Present

- Professional musician, composer, arranger and educator with experience across freelance, arts and education settings.
- Deliver adaptive tuition for visually impaired musicians and learners with complex needs, developing creative solutions to communication and accessibility challenges.
- Pioneered a programme of informal performances for young musicians across Buckinghamshire, increasing opportunities for pupils to develop confidence and performance experience.

Painting Lab: Arts Educational Assistant / March 2024 - September 2026

- Assisted in delivering visual-arts education within an ongoing research project.
- Identified an opportunity to use technology to support the project's teaching methodology.
- Designed and developed a Python image-processing application that breaks reference images into progressive stages to support realistic drawing and painting.

APF Activity Camps: Program & Operations Assistant / January - April 2023

- Supported expansion from 2 to 10 holiday-camp venues.
- Established relationships with Social Services and refugee organisations to broaden access to funded placements.
- Improved equipment allocation processes and secured additional community funding, increasing programme capacity.

Southside House: Musician-in-Residence / March 2021 - September 2022

- Curated the venue's concert programme and managed performers.
- Introduced outdoor programming, contributing to significantly increased attendance and numerous sold-out performances.
